## MIDLANDS APICS Professional Development Meeting

Joint meeting with ASQ

# "A Journey to Lean Scheduling at Wells Dairy: The Good, The Bad & The Ugly!"

***Presented by: Scott Roy – Blue Bunny***

Tonight's presentation is about Wells Dairy's journey towards lean scheduling in our ice cream plant. The good, the bad and the ugly is not meant to be a description of our presenters but it describes the learning journey that we went through in implementing lean scheduling into two of our production families.

Tonight's presentations will give you background on who Wells' Dairy is and what products they make. We will explain the manufacturing environment that is represented with our product families and the challenges that they created. We will then follow the implementation journey: - What is it and why do we have to do it: - the team : -Why so much data we know this stuff ( we have been doing this for ever!): - Maybe we can learn something new, this may just work: - Implementation: - Project review: the good ,the bad & the ugly!

Reservations are required for PDMs. We on the Midlands BOD appreciate the fact your schedule is very fluid and that plans change. It would help us immensely if you put your reservation in by the deadline and if plans change, please let us know. The unfortunate fact is that many caterers require a firm commitment on the number of meals 3 days in advance and we are billed for that amount no matter what. So, please keep us in mind if your plans change. It will help us hold down our PDM costs.

[To make reservations for the dinner meeting \(please include your meal choice\) and \(optional\) your company. Please email \(email is the preferred method\) your PDM reservation and meal choice no later than](#)
